NOTES TO CONTRIBUTORS

The JOURNAL OF BIOCHEMISTRY publishes contributions, written in English, in the forms of (1) Regular Paper and (2) Communication, covering material requiring prompt publication. Manuscripts should be written succinct forms. No length-limit is set for a Regular Paper, whereas a Communication is not allowed to exceed 3 printed pages. Charges of ¥600 and ¥6,000 are made for every printed page of a Regular Paper and a Communication, respectively.

The manuscript should be typewritten in double-spacing and appropriately numbered. Submission of three copies of manuscript is requested. The manuscript should be sent to: The Japanese Biochemical Society, c/o Japan Academic Societies Center, Yayoi 2–4–16, Bunkyo-ku, Tokyo 113, Japan.

Reprints can be purchased, in lots of 50 copies, at cost prices. The order for reprints should be made on returning the proof.

On submission of papers, authors are requested to select one of the following 19 fields, under which the submitted papers should be reviewed, and indicate it on the title page of the manuscript.

Fields to be selected:
